**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 168 is rejected under 35 U.S.C. 102(b) as being anticipated by Alderson (US 5,939,822), of record.

Regarding claim 168, Alderson ('822) teaches 168 a method comprising the steps of: roughening an initial face of a primary body to form a rough face; and subsequently positioning, between opposing first and second plate structures of a flat-panel display for which the second plate structure produces an image upon receiving electrons emitted by the first plate structure during operation of the display, a spacer comprising at least a segment of the primary body and its rough face.

***Allowable Subject Matter***

2. Claims 108, 110-112, 114-120, 143, 158, 185, 187, 193, 205, and 211 are allowed.
